

বুয়েটের এমএসসি এডমিশন টেস্টের সিলেবাস-২০২৫
কোর্সটি নিম্নোক্ত সিলেবাসের আলোকে নেওয়া হবে। ইদের আগেই কোর্স প্লান দেওয়া হবে।
বিগত বছর ২০১৫-২০২৪ সালের প্রশ্ন বিশ্লেষণ, সমাধান, সাজেশন্স আর লাইভ ক্লাস তো থাকছেই।

Structured and Object-Oriented Programming
Discrete & Concrete Mathematics, Probability and Statistics
Data Structures & Algorithms
Compiler and Theory of Computation
Database
Computer Network & Security
Software Engineering and Information System Design
Digital Logic Design, Microprocessors and Microcontrollers
Computer Architecture & Operating Systems
Artificial Intelligence and Machine Learning

For each group, there will be separate Admission Tests. Each admission test will be conducted in two phases in one sitting as follows. There will be a MCQ exam followed by a written exam. However, for each group, the scripts for the latter (i.e., written exam) will be evaluated only if the score in the MCQ exam is higher than or equal to a cut-off mark set by the Admission Committee. The decision of the Admission Committee in this regard will be final. The Final Merit List for each group will be determined by summing the scores of MCQ and written exams. **The duration of the MCQ Exam will be 50 minutes and that for the written exam will be 1 hour.** The written exam will consist of 10 questions (100 marks) and the MCQ exam will consist of 50 questions (50 marks). There will be negative marks in the MCQ exam: for each wrong answer, 0.5 marks will be deducted. **Only non-programmable calculators will be allowed.**
